WITHOUT CLEAN WATER, SOCCER UNIFORMS WOULD NEVER MAKE IT THROUGH THE ENTIRE SEASON.

You may not think about how water gets to you when you need it. You don't have to, because we do. We run the treatment plants, pumps, and pipes that deliver clean water and safely carry away our used water.

But here's a dirty secret: Those systems are aging. Many parts need to be fixed, upgraded or replaced. Waiting until they fail is not an option. We all need water to wash, cook, bathe, and do countless other daily tasks. Our families need water to thrive.

Your water and wastewater bills pay for investments that guarantee clean, safe water is available. All day, every day—now and for future generations. Water—Essential. Reliable. Invaluable.
